SUMMARY

Data Analyst & BI Specialist with 8+ years of turning messy, scattered business data into clean, trusted insights that leaders actually use to make decisions. I build end-to-end SQL/Python/BI solutions that kill manual spreadsheets, cut reporting effort by 40%, and save 16+ hours per department each month while reducing metric conflicts by 40%. I'm usually brought in when teams are drowning in different "versions of truth" and need someone to align KPIs, centralize data, and ship fast, reliable dashboards. I want to bring this same mix of hands-on analytics, governance mindset, and business focus to a team that's ready to move from gut feel to confident, data-driven growth.

Languages: English (C1) · German (B1)

CORE EXPERTISE

BI & Visualization	Tableau, Power BI, DAX, Datorama
Data Engineering	SQL, Python, ETL/ELT, Azure, BigQuery, Excel, Data modeling
Analytics	Google Analytics, Clustering, Predictive modelling
Product Analytics	Cohort analysis, Funnel optimization, KPI design, LTV/CAC, User retention
Leadership & Quality	Data governance, Stakeholder management, Data literacy, GDPR compliance

PROFESSIONAL EXPERIENCE

Strategic Data Analyst & BI Specialist — 2025 – Present

Freelance · BERLIN

Delivered analytics solutions for startups and SMEs in e-commerce and healthcare

- Used **funnel analysis and KPI alignment** to influence marketing leaders to reprioritize campaigns, resulting in **20% faster decision cycles**
- Designed **end-to-end BI pipelines** (**SQL, Python, Power BI, Tableau**) enabling executives to track **product funnel KPIs** (activation → retention → revenue) across business units
- Engineered optimized **SQL queries using CTEs and window functions** to improve **data reliability and analytical performance**
- Increased **analytics adoption** through data storytelling workshops and dashboard optimization, reducing **dashboard latency from 10s to <2s**

MSc. in Data Analytics, University of Creative Arts (UCA), BERLIN — 2023 – 2025

Senior Business & Data Analyst — 2015 – 2023

Zorlu Holding · ISTANBUL & IZMIR

Project Management Office, IT · Turkey's 3rd-largest conglomerate

- Built enterprise BI systems and executive dashboards (**Tableau, Power BI**) enabling leadership to monitor **revenue performance and operational KPIs across 50+ franchise locations**

- Automated reporting workflows using **Python and SQL**, reducing reporting effort by **40%** and improving reporting consistency across departments
- Convinced cross-functional teams to adopt centralized **KPI frameworks and a company-wide data dictionary**, reducing **metric conflicts by 40%** and establishing a single source of truth
- Migrated legacy reporting infrastructure to **Azure and MS SQL**, reducing operational work by **30%** and accelerating analytics delivery
- Conducted **demand pattern analysis** to optimize stocking levels and **reduce production waste** across franchise operations

ERP Solutions Consultant

2014 – 2015

Freelance · IZMIR

Industries: Production, Manufacturing

- Helped manufacturing SMEs transition from **manual production tracking** to **structured ERP-based operations**, improving operational visibility
- Guided **SAP Business One implementations**, translating operational processes into **digital ERP workflows**
- Standardized **inventory and production tracking systems**, enabling more reliable operational monitoring and reporting
- Trained business teams on **ERP adoption** and **operational reporting workflows**

EDUCATION

MSc. Data Analytics

2023 – 2025

University of Creative Arts (UCA) · BERLIN

Thesis: Enhancing Project Management through Machine Learning and Predictive Analytics

BSc. Industrial Engineering

2009 – 2014

Koç University · ISTANBUL

Best Senior Project Award: Logistics Optimization for Auto Gas Facilities

AWARDS & RECOGNITION

INFORMS Conference Presenter – Published logistics research achieving 18% efficiency gain at Turkish auto-gas facilities

Healthcare Impact – Pro-bono project with Turkish Kidney Foundation Hospital optimizing patient admissions

Top Performer, Bayer AG BIMS Academy – Selected for excellence in pharmaceutical business modeling

CERTIFICATIONS

- Microsoft Advanced AI & Machine Learning Capstone (2025)
- Tableau Certified Professional (Data Scientist, Developer, Architect) (2020–2021)
- Google Analytics & Performance Ads Certified (2025)
- IoT for Business Management, UCA (2024)
